Project Name	**ShopEZ: One-Stop Shop for Online Purchases**

For ShopEZ, a one-stop shop for online purchases, here's a proposed design solution focusing on key aspects for a seamless online shopping experience:

Proposed Design Solution :

1. User-Friendly Interface: Design an intuitive interface for easy navigation across product categories (like shoes, electronics, fashion, etc.).

2. Product Listings & Details: Display products with images, descriptions, prices, reviews, and ratings.

3. Search & Filters: Implement advanced search with filters by price, brand, category, etc.

4. Shopping Cart & Checkout: Secure payment gateways and a streamlined checkout process.

5. User Account Management: Allow users to track orders, manage profiles, and view order history.

6. Notifications & Updates: Send updates on orders, promotions, and new arrivals.
